

SELECTINGSUPER BENCHMARK INDICES

The SelectingSuper Benchmark Indices provide consumers, employers, retirees, superannuation funds and financial advisers with the most relevant superannuation and retirement performance benchmarks to compare their investment returns against. These indices are compiled from the most comprehensive analysis of actual superannuation and retirement fund performance results available, covering up to \$963 billion in superannuation money on behalf of over 19 million member accounts in Australia.

The indices reflect net investment performance as comparable to what members would actually receive in their accounts and include master trusts, industry funds, Government funds and corporate funds.
